Friends,

This has been an unprecedented weather event and I know many of you are without power or water. We have been in contact with ERCOT, the grid operator in Texas, and we have been told they cannot bring power back on until more generation comes online.

If you do have power, please conserve energy so that others can get their power back on. There are seniors, infants, and other people with medical conditions.

In the meantime, Texas Division of Emergency Management (TDEM) has set up warming centers across the state. Below is a list of the warming centers in House District 74.
